Submission Y Applicant Name: Mexico Team Normalized Scores 90.3 JUDGING CRITERION # 1: CREDIBILITY OF PARTNERSHIPS (0-5) Did the applicant provide sufficient evidence of partnering with other non-government organizations in either nominating, validating and/or jointly implementing the initiative? 0 - 11 - 2 2 - 33 - 44 - 5 Showed no consultation in Some effort in consulting with Provided sufficient evidence of Demonstrated compelling Shows strong evidence of consulting with other partners to nominating an initiative; may other partners in nominating an mechanisms for consulting consulting others in nominating an initiative; jointly implemented have been jointly implemented initiative; initiative was not nominate an initiative, was others in nominating an with a partner agency and strong but shows very weak validation jointly implemented but provided jointly implemented and initiative; was not jointly of claims minimal validation of claims presented somewhat convincing implemented but shows validation of claims validation of claims. convincing validation of claims 4.6/5 Judge Name: Siapha Kamara Score: 4.6 The stakeholder and especially the parents participation is mainstreamed through out the initiative Comment: Judge Name: Bernadette Leon Score: 5.0 A high-level of consultation in the nomination - this was chosen after all partners in the OGP committee were asked to submit proposals. As Comment: for joint-implementation - this initiative has a civil society partner (Transparency International) and is implemented with private owners of day-care centres as well as the parents who are the users of the service. Contacts for the civil society partner is provided Judge Name: Tanvi Nagpal Score: The initiative was started by an NGO and has been institutionalized through the local government. Comment: Judge Name: Bibhu Prasad Sahu Score: Strong evidence of nomination and validation. Selection of case process commendable. Comment: 4.5 / 5 Ritva Reinikka Judge Name: Score: Provides compelling evidence on consulting CSOs when nominating this initiative. Jointly implemented and wide support from CSOs in terms Comment: of validation. Also a strong partnership with private entities. JUDGING CRITERION # 2: STRENGTH AND INNOVATION IN OPEN GOVERNMENT APPROACHES (0-5) Does the initiative make a compelling case of using open government approaches [e.g. increasing access to information, civic participation, public accountability and/or technology for transparency] to improve public service delivery? 0 - 11 - 2 4 - 5 2 - 3 3 - 4 Exhibits a centralized, top-down Somewhat articulates the Makes a convincing case of the Establishes strong rationale for Employs innovative open approach to improving public importance of using open need to use open government using open government government approaches given services rather than publicgovernment approaches but approaches and addresses a approaches which are somewhat the country context; targets an these are sporadic, not wellinnovative; targets a large need of the target population for ambitious number of the facing approach; Target thought out; Needs of the target population largely have a improved public services number of the population and population and is responding to population is unclear clearly identifies a need a real need or demand passive role 2.9/5 Judge Name: Siapha Kamara Score: Comment: The openness of the local government authorities empowered the individual parent and CSOs to participate in developing strategies to strengthen the administrative infrsdtrcure of the Day Care Center 4.5 / 5 Bernadette Leon Judge Name: Score: 4.5 The scope and potential impact of this initiative is huge, 34 000 parents have participated in 5 years as community-inspectors or monitors and Comment: this model of community monitoring using web-based reporting platforms to make findings visible have large potential for replication and use in other services-monitoring. This is an excellent example of using civic participation supported by technology to support more responsive service delivery. 4.8 / 5 Judge Name: Tanvi Nagpal Score: 4.8 Comment: Uses parents as effective partners and makes them a part of the feedback loop to improve the safety of day care centers. Just not sure if the centers are used by all types of parents.. Are they free? Bibhu Prasad Sahu Judge Name: Score: Comment: It has the strength of innovation and result oriented. But it is unable to reach a larger population due to a web based tool. Mobile technology can be used to reach a larger population. 4.2 / 5 Judge Name: Ritva Reinikka Score: 4.2 This initiative comes across very strong in terms of using civic participation to ensure public accountability. It is concrete and simple, and Comment: responds to a real need/demand, following the horrific fire in a public day-care center in 2009. The way the parent monitoring is designed is robust and systematic with random selection. The initiative is less "techie" than some other OGP applications but it does publish the results of the parent inspections on a public web site. It also uses technology to monitor indicators and ensure a faster response. JUDGING CRITERION # 3: EVIDENCE OF RESULTS (0-5) Is there any evidence of the initiative achieving the four initiative outcomes listed in the application and/or concrete improvements in public services or access to services? 0 - 11 - 2 2 - 3 3 - 4 4 - 5 Achieved two or more of the Shows little evidence of Shows some signs of achieving Demonstrates achieving one or Uses clear indicators to prove outcomes but the evidence is outcomes to ultimately expand achieving any of the outcomes or more of the outcomes, but it is that one or more of the outcomes of an improvement in public unclear whether the quality of were achieved; initiative has access or improve service quality unconvincing; change in public for a majority of the target services; target population has service is incremental and has the public service or access to widened access or improved the population; set new standards barely been reached reached some of the target the service has improved quality of a public service for population more than half of the target for the relationship between government and citizens population 4.2/5 Judge Name: Siapha Kamara Score: 4.2 The parents were mobilized to volunteer their services in monitoring and evaluating the day care centers for the children and this helped the Comment: local authorities to improve on the services to children. 4.8 / 5 Judge Name: Bernadette Leon Score: Comment: Access to information on the performance of public service providers, citizen mechanisms to monitor services citizens ability to inform the design of programmes...all of these outcomes are achieved by this initiative: 34 000 parents have participated in 5 years, as communitymonitors of daycare centres. The reporting of the monitoring findings on-line makes for quicker responding to problems and for transparency w.r.t to performance. To some extend this does set a new standard for citizen-government relationships, moving from passive recipients of services to active monitors. 4.2 / 5 Judge Name: Tanvi Nagpal Score: Not sure if there is concrete evidence. Apparently there is a decline in the number of the day care centers which are not passing safety Comment: inspections. 4.7 / 5 Judge Name: Bibhu Prasad Sahu Score: Comment: Target population still not clear though a number of monitoring visits and events conducted. Need to demonstrate beneficiary details and quality of service improved. 5/5 Judge Name: Ritva Reinikka Score: 5.0 Comment: This important initiative has run almost for 5 years which makes it easier to see its impact. There are clear indicators in terms of inspection visits, parent participation, and improvements in adherence to safety regulations by day-care centers. While there is no information on reduction in incidents, one assumes they have reduced. JUDGING CRITERION # 4: SUSTAINABILITY (0-5) Does the applicant make a compelling case that the initiative will be institutionalized or scaled-up over time? 0 - 1 1 - 2 2 - 3 3 - 44 - 5 Demonstrates few plans in Lists activities to institutionalize Outlines a clear path to either Presents a durable model that Shows some committment to moving the initiative beyond the the initiative; but only somewhat institutionalize or scale-up the can be institutionalized and/or institutionalizing the initiative; but presents unrealistic ways of initiative; makes a good case on scaled-up; makes a compelling pilot stage; does not address any addresses how challenges will be how potential challenges will be case for how challenges will be potential threats or challenges to managing challenges faced by addressed the initiative the initiative addressedmanaged 3.4/5 Siapha Kamara Judge Name: Score: This promoters have outlined concrete activities towards institutionalizations and ways to overcome challenges. Comment: 4.7/5 Judge Name: Bernadette Leon Score: Comment: There are indications that the initiative has been internalised into the regulations of this service, making it standard procedures now. There is also indication that scale up is underway - more and more daycare centres are being monitored and that this approach to collecting performance data and making it public has already been institutionalised. The risk of parent-fatigue is mentioned and it appears that, because of the visible positive results that this risk has been managed successfully. 4.1/5Tanvi Nagpal Judge Name: Score: 4.1 Comment: The partners understand that the main impediment may be to maintain public interest in the project. The issue is that its not clear that parents will continue to monitor the day cares year after year. So its not an issue of scale but of sustainability for the long term Of course, its completely possible that once the day cares put safety procedures into place they will stay improved. 5/5 Judge Name: Bibhu Prasad Sahu Score: Comment: Need to further improve process by the use of more ICT tools like mobile technology and APPs to make the monitoring user friendly and reach more target population and the poor and most vulnerable. 4.7/5 Judge Name: Ritva Reinikka Score: 4.7 The application makes a compelling case that the initiative has already been institutionalized. The application discusses challenges that it Comment: might face in terms of credibility and parents' participation. Its mitigation plan appears sound. The future plans include upgrading the technology, such as developing a mobile app, and developing a model to predict problems. JUDGING CRITERION # 5: SPECIAL RECOGNITION (0-5) Does this open government initiative demonstrate that it successfully improved service delivery access and/or outcomes for a vulnerable population (e.g. poor, elderly, minorities, women), thereby promoting more inclusive development? \*Please note that this criterion will not be used in the overall score. 0 - 1 1 - 2 3 - 4 4 - 5 2 - 3 Select this range for Yes Do Not Select Do Not Select Do Not Select Select this range for No Judge Name: Siapha Kamara Score: Comment: Children using public day care centers are usually from lower income families Bernadette Leon Judge Name: Score: 5.0 Service delivery outcomes for the most vulnerable, being children and mothers, are improved through this initiative. It was born out of a Comment: terrible tragedy where children died in a daycare centre fire - rather than government jumping in to commit to monitor better which it will not have the capacity to do well, it turned this tragedy into a innovative partnership between government and the parents, using technology and citizens as inspectors of services. 0/5

Strong case for recognition and potentially replicable case. YES.

The initiative improves safety for infants and children in day care centers. So, the extent to which one considers all children vulnerable, the

While not directly related to any of the groups mentioned above, small children are surely very vulnerable in their day-care center if safety

regulations are not adhered to. Hence, if interpreted that way, this initiative would qualify in my view.
